37 CTR 1.56 ELTY OF DISTINGUES: FRANCE STRUCKE OR REJECTION OF APPLICATIONS.

(a) A dury of condor and good faith sewert the Patent and Bradenark Office systs on the inventor, on each attention or agent who properts or prosecutes the application and on every other and valued who is summartively smolved in the propertion or prosecution of the application and who is essecuted with the inventor, with the assignme or with among we application are well associated with the inverse, with the assigner or with anyone to with their a collection to assign the application. All such individuals have a duty to disclose to the differential threation they are several when his material to the examination of the application. Such information is material when there is a substantial likelihood that a reasonable examiner would consider it important in deciding whether to allow the application to issue as a patent. The duty is commensurate with the degree of involvement in the preparation or prosecution of the application.

Information relating to the following factual situations ensurested in 35 GSC 102 and 103 Should be considered material under 37 GFR $1.56(\alpha)$:

25 D.S.C. 102. COCKTOG FOR PATENTALLITY; SOVELTY MO LOSS OF MIGHT TO PATENT

A person shall be emitted to a patent unless—

(a) the invention was known or used by others in this country, or patented or .

described in a primed publication in this or a foreign country, before the invention thereof by the applicant for patents, or

(b) the invention was patented or described in a primed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of the application for patent in the United States, or

(c) he has electioned the invention, or

(d) the invention was first patented or caused to be patented, or was the subject of an inventor's certificate, by the applicant or his legal representatives or assigns in a foreign country prior to the date of the application for patent in this country on an application for patent or inventor's certificate filled more than thelve months before the filling of the application in the United States, or

(e) the invention was described in a patent granted on an application for patent

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention

thereof by the applicant for patent, or

(f) he did not himself invent the subject matter sought to be patented, or

(g) before the applicant's invention thereof the invention was made in this country. by another who had not abandoned, suppressed, or concealed it. In determining priority of anwention there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceave and last to reduce to practice, from a time prior to conception by the other.

25 D.S.C. 183. CONDITIONS FOR PATCHIABILITY: NON-CONTROL STRATET HOSTER

A perent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary shill in the art to which said subject matter pertains. Patentability shall not be required by the manner in which the invention was made.

25 D.S.C. 119. RECEIT OF EARLIER FILING DATE IN FOREIGN CORNERS: RIGHT OF PRICRITY (Applicable Portion)

An application for patent for an invention filed in this country by any person who has, or whose legal representatives or easyms have, previously requierly filed an applicahas, or whose legal representatives or assigns have, previously regularly filed an applica-tion for a parent for the same invention in a foreign country which affords similar privileges in the case of applications filed in the United States or to citizens of the United States, shall have the same affect as the same application would have if filed in this country on the date on which the application for parent for the same invention was first filed in such foreign country, if the application in this country is filed within twelve counts from the earliest date on which such foreign application was filed; but no patent shall be granted on warries note on which such soveruph application was filed; but no potent shall be granted on any application for patent for an invention which has seen patented or described in a printed publication in any country more than one year select the date of the actual filing of the application in this country, or which had seen in public use or on hale in this country more than one year prior to such filing.

25 D.S.C. 120. SENETIT OF EXPLIEN FILING DATE DI THE UNITED SENETE

An application for parent for an invention disclosed in the manner provided by the first paraptaph of section 112 of this title in an application previously filed in the United States, or as provided by section 363 of this title, by the arms invention; shall have the same effect, as to such invention, as though filed on the date of the order application, if filed before the perentury or mannforment of or termination of proceedings on the first application or on an application smallarly emitted to the benefit of the filling date of the first application and if it commands or is exceeded to commain a specific reference to the earlier filed application.

35 D.S.C. 112. "Grant Toutes (Applicable Portion)

The specification shall contain a written description of the invention, and of the Barner and process of Making and using it, in sum. full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly converted, to make the use the same, and shall set forth the best wide contemplated by the

Anwencer of corrying out his invention.

The openification shall conclude with one or more claims particularly cointing out and distinctive claims the subject water which the applicant regards as his invention.
